MEMORANDUM FOR: Chief, Information and Management Support Staff, OL

FROM: [REDACTED]

Chief, Printing &amp; Photography Group, OL

SUBJECT: Resource Issues for DDS&amp;T Conference

REFERENCE: Multi Addressees Routing Sheet fm IMSS,  
dtd 15 Sept 88, Subj: Info Req by DDA

1. Office of Logistics, Printing & Photography Group (OL/P&PG) continues to enhance support to the Deputy Director for Science and Technology, Foreign Broadcast Information Service (DDS&T/FBIS). In January 1988, FBIS requested three additional electronic compositors to satisfy their publishing requirements, and P&PG agreed to supply these personnel. This brings the number of positions at FBIS for staffing by P&PG to 13. Additionally, approximately 70 percent of the Joint Publications Research Service (JPRS) reports have been added to the electronic publishing network with an impressive reduction in the number of finished pages produced due to compaction of text through typesetting. P&PG will continue to support the publishing requirements of FBIS. A new Memorandum Of Agreement (MOU) between FBIS and P&PG detailing the obligations and commitments of each component is currently in final draft.

2. Another major P&PG concern is the satellite printing plant planned [REDACTED] is intended to provide JPRS and FBIS enhanced printing support to include more pages plus graphics. [REDACTED]

[REDACTED] of 26 August, is for a plant of 70,698 square feet. Possible impediments to the printing plant location [REDACTED] are:

- possible zoning restrictions on plant activity;
- restrictions on truck traffic in the area;
- a requirement that plant and warehouse be located on one floor;

11075-88

SUBJECT: Resource Issues for DDS&T Conference

- a separate HVAC system capable of filtering undesirable chemical fumes from recirculated plant air while maintaining temperature and humidity at stated levels;
- environmental considerations for liquid waste from photographic and plate processing operations and possible vapor discharge into the air.

3. If additional information is required you may contact Jim

The DDA will address a DS&T Conference in October. He requested that OL provide comments on resource issues in OL that impact on the DS&T. At the direction of the OL front office, we need to provide a paragraph or two on each of the following:

1. P&PG work on FBIS publications (response to be prepared by P&PG).

2. S&T space issues and ORD space (response to be prepared by ~~P&PG~~ RECD).

3. S&T contracting support concerns (response to be prepared by PMS).

4. S&T moves (response to come from FMD).

5. Any other joint concerns for OL and the S&T (response to come from any OL component).

Also, the DA wants info on:

1. Agency priorities to meet space needs and impediments in the way of achieving them (response to come from FMD).

2. Brief status (response to come from RECD).

I need all responses by 23 September 88 for submission to the DDA thru the D/L.

*Thanks,*
